10679	10679	69	90	74					09-12-24	1	10-03-24	

Use this report to identify cows with abnormal intervals between breedings to understand how to maintain intervals of 18-24 days.

Cow list excludes cows with 1) Repro codes C or P, 2) only one interval and it is between 18-24 days and not open (N), and 3) DIM less than VWP and times bred is not greater than 1.

+ = interval includes unreported breeding(s).

Current breeding herd averages are presented for Days 1st Srv and % Heats Obs.
