

RapidReports

DECISIONS FOR THE WAY YOU DAIRY

What is RapidReports?

Take your Dart reports with you on the go with RapidReports. Build, edit, and view reports from any browser or device using your test day or DartSync data.

Easily sort or group results, drill down to CowCompass, create visual alerts, and export to other programs for seamless data analysis.

Accessing RapidReports

Select the HerdHQ icon in Dart or log into drms.org then choose RapidReports.

1. Modify or view existing custom and Standard Reports as a PDF or Grid

Note: PDF opens in a new tab in browser, Gridview opens in current tab

Create a new report

2. Create New Report

3. Give the report a **name** and **description**; enter herdcode if not prefilled

4. Choose desired **animal** and **data type**

5. Set **Major** or **Minor** groupings

6. **Search** available DBIs or use **Add Report Item** button

- Select small **report icon** to add that DBI to the List section

- Select the small **wrench icon** to add that DBI to the Limit/Control section

- Select the **eye icon** to view additional details regarding that DBI

7. Choose a **sort order** for any DBI in the list

8. Set **Lower** and **Upper limits**; activate the checkbox in the "Not" column to omit values

9. Activate available alerts once DBI has been added to the report

10. **Save** or **View Report** as a Grid or PDF

Note: Some Database Items (DBI) have different options for controls than in Dart so pay particular attention when setting lower and upper limits

	Name	Description	Creation	Last Updated
ReportType: HerdCode Report - 34559999				
ReportType: Standard Reports				
PDF	SCC Report for all Cows	SCC Report with Alerts	01/26/2026	03/02/2026
PDF	General Group Averages	Cow Group Report with General Data	01/26/2026	01/26/2026
PDF	Genetics Cows and Dairy Heifers	Genetic Data	01/26/2026	01/26/2026
PDF	Milk Production Report	Production Report	01/26/2026	01/26/2026

Save Report Save as New Report Gridview View Report

11. Select **Back to Report Config** to continue modifying report or to save
12. **Back to Main Report Grid** returns to the list of all available reports
13. Select **Animal Identification** to view additional details in CowCompass
14. **Sort** results by toggling header field
15. Drag a **column header** to the top to group by that column
16. **Search** for a particular animal
17. **Only show** animals with activated alerts
18. **Export** to .xlsx, .csv, or .pdf

Note: Totals and averages for reports viewed as a PDF will display at the top of the page in RapidReports instead of the bottom of the page in Dart

Creating Alerts

19. Select **Yellow Bell** Icon
 20. View any **Standard Alerts** created by DRMS
 21. **Create New Alert**
 22. Select a **DBI** from the drop-down menu
 23. Choose the **Condition** for the alert
 24. Establish the required **Minimum value** and optional **Maximum value**
- Note: Select the eye icon for applicable DBIs to view available values*
25. Define the **Color** using the drop-down menu or **Create Custom Color**
 26. **Save** or **Cancel Changes** to this new alert
 27. **Edit, Delete,** or **Copy** to another herdcod any current alerts
 28. If you have many alerts, you can **drag a column header** above them all to group by that column or **Search** for a specific alert

Note: If an Alert was created in another HerdHQ tool, you can activate that alert once the associated DBI has been added to the report
