Tip Tuesday!

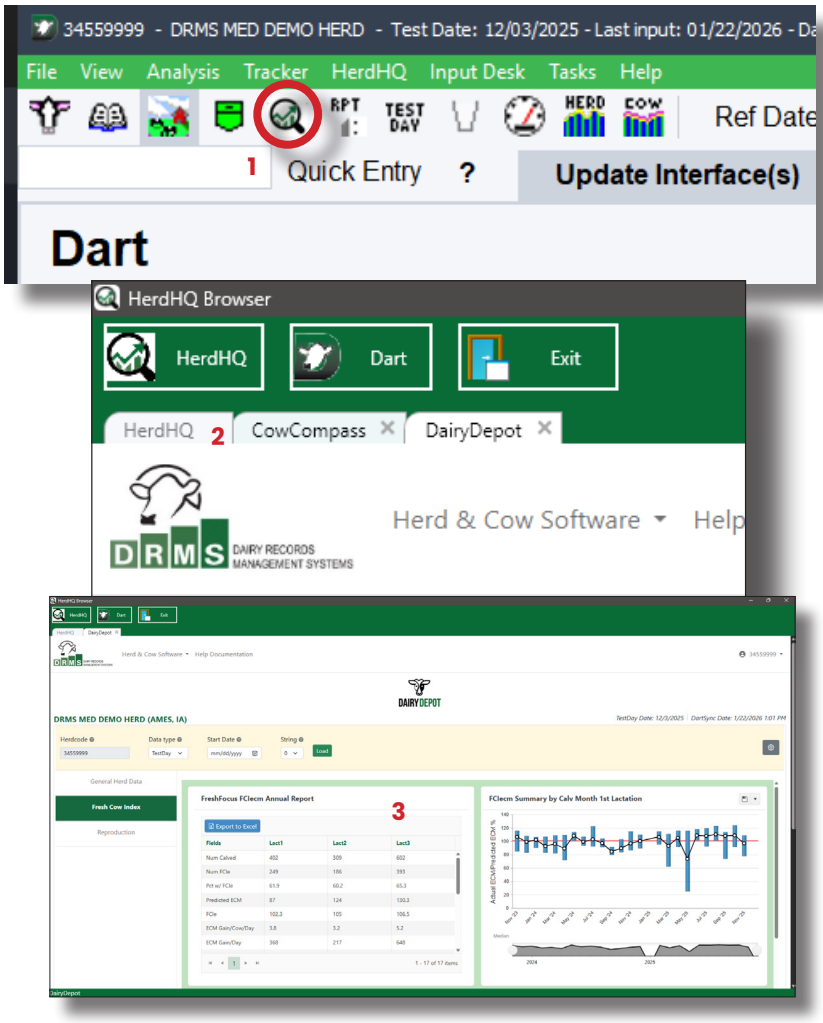

HerdHQ v2 is here! Now accessible inside Dart

If you've liked using HerdHQ in the past, you'll love using it now! Access all your favorite data analysis products from the convenience of your Dart 8.7 program.

1. Select the HerdHQ Logo or an individual product from the drop down menu directly above that iconic magnifying glass.

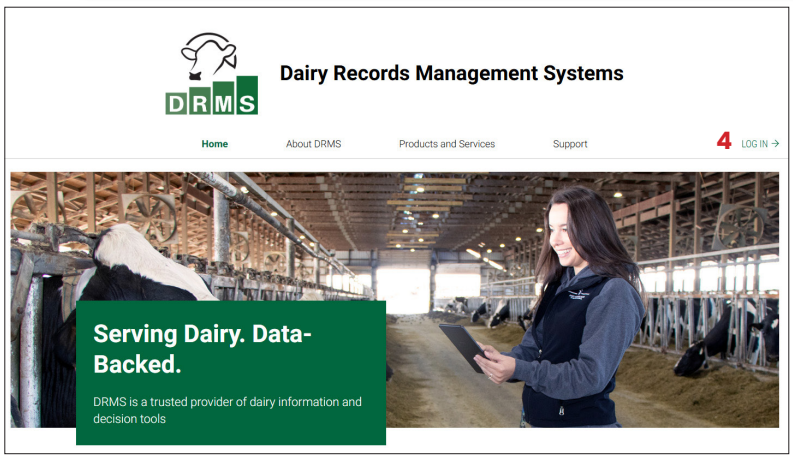

Note: No need to log-in to HerdHQ; credentials are pulled directly from your User Identification tab in Program Setup.

2. Quickly move between each HerdHQ product with the handy browser-like tabs or go back to Dart on the new landing page

3. Discover additional enhancements like new charts, filters, and alerts for deeper, more efficient analysis

4. Still find your favorite HerdHQ products the traditional way by logging into drms.org from any browser and any device

And best of all, HerdHQ is now included for all Dart herds processing their test day with DRMS! Bundled pricing, easier access right from Dart, and new features to give you more efficient and comprehensive data analysis. DRMS took the best dairy decision support tools and made them even better.
