Tip Tuesday!

Add CowCompass to Your Mobile Device Home Screen

Save time when viewing animals in CowCompass by adding it as a shortcut to the home screen on your mobile device. Since HerdHQ tools are included for all processed DRMS herds at no extra charge, Producers can truly take their Test Day or DartSync data on the go with cow-side look-up in CowCompass.

All Users Start Here:

1. Open preferred internet browser and navigate to **apps.drms.org**
2. Producers **log in** with 8-digit Herdcode and 4-digit RAC

Note: Consultants and Technicians log in with Username and Password

3. **Save log-in** credentials when prompted
4. Choose **CowCompass**

Android Devices:

5. Select **3-dot menu** in upper right corner
6. Choose **Install and create shortcut**
7. Choose **Install**
8. Select **Install**

Apple Devices:

9. Select **3-dot menu** in lower right corner
10. Select **Share**
11. Select **Add to Home Screen**
12. Select **Add**
