WARRANTY AND INDEMNIFICATION

Other than as expressly set forth in this Agreement, Zoetis has not made any and hereby excludes all warranties, representations, terms, conditions or undertakings, whether express or implied, written or oral, statutory or otherwise, including any implied warranty of merchantability or of fitness for a particular purpose or intended use in respect of the Services, as such are delivered "as-is." Zoetis assumes no legal liability or responsibility for the accuracy, completeness, reliability or usefulness of any information disclosed, nor does Zoetis represent that its use would not infringe privately owned rights. All results will be predicated on the accuracy of the purchaser's information systems and the completeness of the samples and information provided to Zoetis. You agree that your damages and remedies for any claim against Zoetis arising out of the provision of Services, howsoever arising, (including arising under theories of breach of warranty express or implied, breach of contract, negligence, tort, strict liability, products liability, design defect, failure to warn) shall be limited, at Zoetis' option, to: (1) the resupply of the Services claimed to be defective; or (2) the repayment of the fees paid by you for the performance of the Services proven to be defective. Zoetis may, at its discretion, store Samples submitted to Zoetis. At any time during this period, the Contractor may arrange for the Samples to be collected from Zoetis at the Contractor's expense, with a minimum of thirty (30) days notice.

DATA USAGE

You agree that the data provided to Zoetis for the performance of the Services may be used in the validation of samples and with respect to other internal efforts to improve the quality of our commercial offerings. In addition, you agree that such samples and related information may be released to the Council of Dairy Cattle Breeding ("CDCB") and/or the United States Department of Agriculture - Animal Genomics Improvement Laboratory ("USDA AGIL"), or other contractors as requested for Services processed. PLEASE NOTE: IN ADDITION TO THE RESULTS YOU WILL RECEIVE FROM ZOETIS, ALL CDCB TEST RESULTS WILL BE POSTED ON THE COUNCIL ON DAIRY CATTLE BREEDING WEBSITE: http://www.cdcb.us

BILLING INFORMATION

Terms and Conditions for CLARIFIDE in PC Dart

For PC Dart users, we are asking for a one-time review of and signature for the following terms and conditions. Please review, sign and return by fax (269-359-4696) or scan and send to: genetics.us@zoetis.com

1) Customers are required to have Version 8.3 or greater of PC Dart. Dairy producers would need to contact DRMS Customer Service to update as needed. This contact information is: 515-294-2526 (Central Time) or 919-661-3100 (Easter Time), or email drms@iastate.edu.

2) Deadlines for data and sample submission are the same as the regular submission and may be found at www.clarifide.com.

3) For those nominated animals that require any corrections, a notification file detailing those animals will be provided back to the customer. To ensure your results are not delayed, please review and submit an updated file with those animals' changes to Zoetis within 2 working days from receipt of notification.

4) If applicable, Zoetis will issue a Parentage Report to detail cases where genomic parentage is different from nominated (pedigree) parentage. Customers will be given the opportunity to review the Interim Parentage Report and accept or decline the genomic parentage results. Accepted parentage will be imported into the data management platform at the time of CLARIFIDE results delivery. It should be noted that CLARIFIDE results cannot be delivered in cases where customers do not accept the genomic parentage results; this typically occurs in cases where recordkeeping errors are suspected to be the cause of the parentage discrepancy. Registered or Holstein Basic ID animals with parentage discrepancies require owner and breed association's concurrence before changes will be implemented.

5) Default genomic traits to be imported include: Net Merit (NM$), Cheese Merit (CM$), Fluid Merit (FM$), Productive Life (PL), Somatic Cell Score (SCS), Daughter Pregnancy Rate (DPR), Milk Yield (Milk), Fat (Fat), Protein (Prot), Sire Calving Ease (SCE), Daughter Calving Ease (DCE), Sire Still Birth (SSB), Daughter Still Birth (DSB), Genomic Individual Inbreeding (Ind Inbrd), Genomic Future Inbreeding (Fut Inbrd), Status for Holstein Haplotype 1 (HH1), Status for Holstein Haplotype 2 (HH2), Status for Holstein Haplotype 3 (HH3), Status for Jersey Haplotype 1 (JH1), Jersey haplotype pedigree confirmation (JH1-PC), Status for Brown Swiss Haplotype 1 (BH1), Udder Composite (UDC), Feet & Legs Composite (FLC), Calving Ability (CA$), Body Size Composite (BDC), Breed Performance Index (BPI). Additional traits may be added over time as they become available. If customers prefer to view other traits than the default list, please contact DRMS Customer Service, 515-294-2526 (Central Time) or 919-661-3100 (Eastern Time) or email drms@iastate.edu

6) All animals must be submitted with unique animal identification (ID) numbers, in accordance with U.S. and international standards. The ID must be an official ID, such as a breed association registration number, an 840 RFID (electronic ID), or an official state-issued vaccination tag number. The ID must be unique (specific to only one animal in the world) and cannot be a "recycled" ID that was previously used on a different animal, even if the animal it was previously used for is deceased. All animal IDs must be entered correctly into the software program and any corrections must be made using a software program; Zoetis cannot make changes to animal IDs submitted through the software platform. CLARIFIDE results cannot be delivered in cases where an invalid, unofficial or re-used ID has been submitted.

I understand that it is my responsibility to read the contents of and become familiar with the terms and conditions for CLARIFIDE in PC Dart.
I hereby acknowledge that I have received and reviewed the terms and conditions:

Signature

Should you have any questions or concerns about the above, please feel free to contact our Zoetis Genetics Customer Service at 1-877-233-3362 or email us at genetics.us@zoetis.com.
